MANISHA A

Data Analyst | Aspiring Data Scientist | Python | SQL | Machine Learning

Tamil Nadu, India | +91 82489 30126 | manishaanbu30@gmail.com | LinkedIn: linkedin.com/in/manisha-a-113249240 | GitHub: github.com/Manisha3009

PROFESSIONAL SUMMARY

Data Analyst at Cybernaut EdTech with hands-on experience in Python, SQL, Excel, Power BI, Tableau and Machine Learning. Skilled in data cleaning, EDA, statistical analysis, feature engineering, dashboard development and predictive modelling using Pandas, NumPy, Scikit-learn and Streamlit. Built real-world analytics and ML projects including student prediction, e-commerce customer segmentation and QuakeScope AI. Seeking Data Analyst, Data Science or Machine Learning opportunities.

TECHNICAL SKILLS

Programming: Python, SQL

Data Analytics: Data Cleaning, EDA, Statistical Analysis, KPI Reporting, Data Visualization, Business Intelligence

Machine Learning: Regression, Classification, Decision Trees, Random Forest, KNN, K-Means, Isolation Forest, Feature Engineering, Model Evaluation

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Streamlit

Databases & BI Tools: MySQL, Excel, Google Sheets, Power BI, Tableau, Power Query, DAX

Development Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Vercel

PROFESSIONAL EXPERIENCE

Data Analyst - Cybernaut EdTech **Jan 2026 - Present**

- Cleaned, validated and analyzed operational and student data using Python, SQL, Excel, Pandas and NumPy to support reporting and data-driven decisions.
- Performed EDA and statistical analysis, prepared ML-ready datasets and automated recurring data-processing and reporting tasks.
- Built Power BI dashboards using Power Query and DAX to track student performance, batch trends, project status and key KPIs.
- Worked on student analytics and machine-learning prediction solutions using Scikit-learn and Streamlit.

Data Analytics & Power BI Intern - _VOIS **Jul 2024 - Sep 2024**

- Developed Power BI dashboards and business reports to communicate performance metrics, trends and actionable insights.
- Used Excel and Power Query to clean, transform and prepare business datasets for reporting and analysis.

AI & Cloud Intern - IBM SkillBuild (AICTE) **Jun 2024 - Jul 2024**

- Worked on core AI, machine-learning and cloud concepts through applied learning and practical datasets.
- Prepared datasets, trained a supervised prediction model and reviewed model outputs as part of an end-to-end ML workflow.

PROJECTS

QuakeScope AI - Global Earthquake Intelligence & ML Dashboard - 2026

- Built an end-to-end analytics and ML dashboard using 100K+ real-world USGS earthquake records. Performed preprocessing, EDA and feature engineering; applied K-Means for seismic clustering and Isolation Forest for anomaly detection; integrated live USGS data, interactive maps and visualizations.

Live Dashboard | **GitHub**

Student Analytics, AI Prediction & Automation Platform - 2026

- Developing a Python, SQL and Streamlit platform combining student, batch, course and mentor data for search, KPI reporting, performance analysis and prediction. Uses Pandas, NumPy, statistical analysis and Scikit-learn classification/regression models.

E-Commerce Big Data Analytics & ML Customer Segmentation - 2026

- Analyzed 541,000+ transaction records using Python and SQL. Built an ETL workflow, performed EDA, engineered RFM features and applied K-Means clustering to identify high-value, loyal, new and at-risk customer segments.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science and Engineering (2022-2026)

S.K.P Engineering College, Anna University | CGPA: 8.1

CERTIFICATIONS

IBM - What is Data Science? | IBM - Artificial Intelligence Fundamentals | IBM - Introduction to Generative AI

Google - Google AI Essentials | EY Techathon 5.0 | Flipkart Runway: Season 5

CORE STRENGTHS

Analytical Thinking | Data-Driven Problem Solving | Attention to Detail | Communication | Team Collaboration
